2008 IN RETROSPECT

In general 2008 was a good year for the Aero ARC. The membership remained stable and we gained a new recruit.

In January we competed in the 20 Days and Nights Contest and continued the ARRL Testing Program.

February saw a number of member callsigns change with KB3KRW now AI3G, KB3RMX now AK3RX and W3XXT as W3PG.

In leap day a Leap Year Six meter net was started.

March saw another test session and the joy of a 12 year old when she passed her Tech.

April kicked off Public Service with WA3SWA helping with the MS Towson walk.

May brought the election of new officers with WB3FMT chosen as train engineer for the year and a RACE hurricane drill.

The hats finally arrived.

Scenes from 2008

June saw a great Field Day effort. Aero supported the Statewide Pandemic Drill. We welcomed new member Jim Dilley.

We rested for the summer in July and August.

September kicked off another RACES volunteer season and

a new test session. We dodged a tropical storm too.

October was busy with Aero participating in the ADA walk one week and the Baltimore Marathon the following week.

November brought a dues increase and Flu Shot event. December waited for Santa.

HAPPY BIRTHDAY TO US

This month the Aero Aerial is 5 years old.

In 2004 we decided that the club needed a newsletter to help keep the members up to speed of what was going on locally with the club and at

the same time not take ourselves too seriously.

We hope that our readers have enjoyed the our efforts. We hope to continue this publication for years to come. As always we look for article

and suggestions for making "The Aero Aerial" a better newsletter.

The Staff

VE REPORT *BY AC3F*

There was a test session held at White Marsh on November 22 closing out the 2008 season. Two applicants took exams; one for element 2 and the other for element 3. Both

were successful.

Congratulations to Dave N3SOE on his upgrade to General and to Weldon Drumwright

On becoming a new ham with the callsign KB3SBL.

The VE's outnumbered the examinees again. Thanks to WB3FMT, AI3G, ND3D, K3YGC, KB3KRV and AC3P for their help.

The ARRL has announced an increase in the test fee to \$15 effective January 1, 2009.

Congratulations to Pat AC3F and Frank AC3P on their 10th Anniversary as Volunteer Examiners.

Pat and Frank began their careers as VEs in 1999 helping with and for a time ran the testing program for BARC. They later took over the program that ran at the Amateur Radio Center which went on to become that Aero ARC sponsored testing at White Marsh.

ANALOG TV CAPUT NEXT MONTH - FCC ASKS HAM OPERATOR HELP

Effective February 19, 2009 all analog television signals will go off the air permanently to be replaced by digital signals.

for converter box discount coupons, the FCC has contacted the ARRL requesting radio amateur help in getting the public through the transition.

the country to put together plans to get the information out to their communities.

While the FCC is leaving it up to the clubs on how to do this, sample materials can be downloaded from the website: <http://www.dtv.gov/outreach.html>.

Although the television stations have been getting the word out all of last year, even referring the public to websites

ARRL Media and PR manager Alan Pitts, W1AGP, says that Amateur Radio clubs across

BARC MINI-FEST IS ON

The Baltimore Amateur Radio Club will be holding their annual Mini-fest at Timonium again this year on Wednesday January 21st. This is a great opportunity to break the winter "cabin fever" and get out to make deals on used gear or clean out the "junkie" box and make a few bucks. It is also a good time to make a few "eyeball" QSO's with folks you have talked to locally and dis-

pel whatever mental picture you had of the person whose voice is coming over the speaker.

For the past few years Aero members have been attending BARC's mini-fest and each year it seems to get better.

The event runs from 3 p.m. to 9 p.m. and admission is free.

STATION ACTIVITIES

QST.....QST.....QST.....QST

Don't forget to turn in your logs for the clubs 20 Days and Nights of Fun Contest.

Details for the event appeared in the December .

The contest runs from 0000 UTC January 1 through 23:59 UTC January 20th.

Send your logs to Doug, AI3G.

In other news:

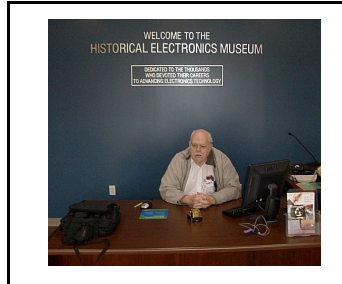

WB3FMT is experiencing an-

tenna problems.

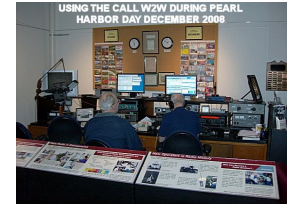

AC3P is waiting for good WX to get the array on the roof.

W3VRD is sprinting on the VHF/UHF bands.

W3JDF and K3ROJ were helping out at the "Day of Infamy" Special Event at W2W.

W3JDF welcomes visitors to W2W while wondering when the 50/50 starts.

Due to technical difficulties at NCS, the net was cut short.

TIME TO PAY THE PIPER

If it's January, dues are due.

Don't forget that the dues have gone up to \$24 for regular membership. Family member dues remain at \$2, a bargain at any price.

Dues are due at the first meeting in January, but must

be paid by the first meeting in April.

Warren will be more than happy to help you renew your 2009 membership.
